Please be sure to look for: **Building 500, Healthtouch Offices - Bull City Safe Space is located inside the Health Touch Suite 500.**

Bull City Counseling is NOT THE SAME ORGANIZATION, if you find yourself at Suite 303, stand at the door, and look towards your left, you will see another line of buildings, and Health Touch/Bull City Safe Space are in the second building as pictured above.

Please note that the door at the office stays locked for client and practitioner safety. It is recommended that you wait in your car until the time of your appointment, and your therapist will meet you at the door to let you in. You may also send a text to 919-887-9502 to alert therapist that you have arrived, however, if therapist is finishing up a session, you may not get a response, and therapist will meet you up front as soon as the session is complete.
